## XTREME<sup>™</sup>

### Stylish, powerful and efficient cleaning!

QuikClean Xtreme is the world's most advanced in-floor cleaning system, combining style, powerful performance and unrivalled efficiency to deliver the ultimate pool ownership experience.

A QuikClean Xtreme pool will complement your lifestyle and be a reflection of your dreams, giving you more time to relax and enjoy your pool while it quickly, quietly and efficiently cleans itself.

You will save money and enjoy your pool more with QuikClean Xtreme!

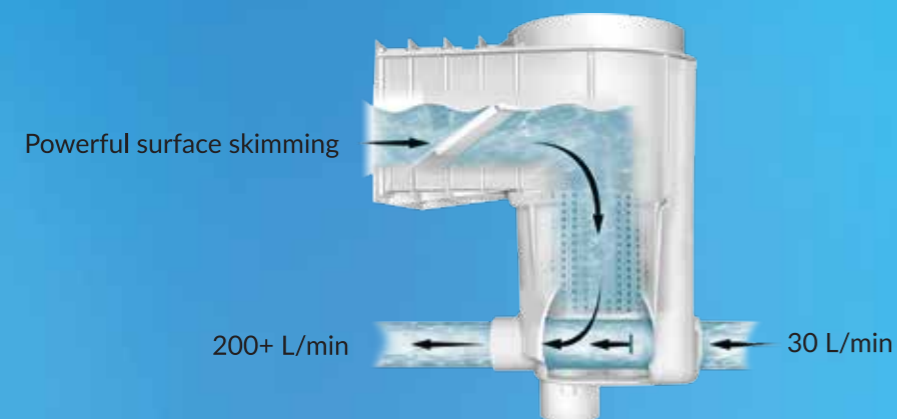

## True energy efficiency

### QuikSkim venturi powered skimmer

The secret to QuikClean Xtreme's awesome power and energy efficiency is the QuikSkim venturi skimmer. Return water, not suction power, generates QuikSkim's powerful performance to save you thousands.

Just 30 L/min of return water pushes through the QuikSkim venturi skimmer to generate its powerful skimming action of more than 200 L/min.

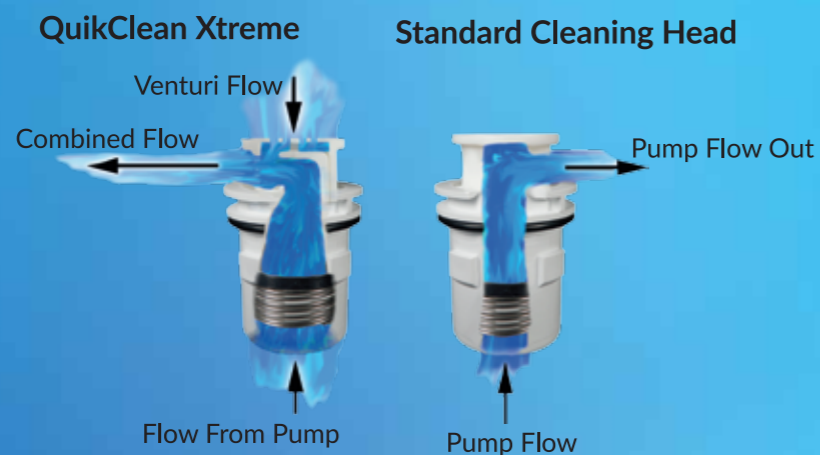

Awesome cleaning with just one pump, that's amazing. Only QuikClean Xtreme keeps your pool clean without huge power bills!

### QuikClean Xtreme venturi cleaning heads

QuikClean Xtreme takes energy efficiency a step further by applying its unique venturi concept to the cleaning heads as well. These new generation cleaning heads combine return water with water from the pool so the pump speed can be slowed and energy use reduced by more than 25%.

Awesome cleaning at lower pump speeds and costs, that's amazing. Only QuikClean Xtreme keeps your pool clean without huge power bills!

## What are the Benefits?

### QuikClean Xtreme is your perfect pool partner!

QuikClean Xtreme automates the cleaning of your pool so you can spend more time relaxing. Your QuikClean Xtreme system will be automatically programmed to sweep debris from the floor of your pool and remove it with maximum efficiency and cleaning power.

QuikClean Xtreme also provides superior circulation which means your pool will be cleaner, healthier and more enjoyable.

- ✔ Relax while your pool cleans itself
- ✔ No robots, no hoses, no work!
- ✔ Reduce heating and treatment costs
- ✔ Great long-term investment
- ✔ Impressive long-term warranty
- ✔ Ultra efficient saves you \$\$\$

Each pool is different and your QuikClean Xtreme system will be individually designed and installed to suit the specific needs of your pool. Cleaning heads will be strategically located in the floor of your pool by an advanced computer design program to ensure it is always cleaned effectively and efficiently.

The small cleaning heads are built into your pool during construction and are colour matched so they blend into the pool floor. They lift and rotate with each cleaning cycle, sweeping debris to a drain located in the deepest part of the pool. Cleaning your pool has never been so easy.
